This article is about the smartphone series. For 2013 smartphone, see [Samsung Galaxy J](#).

Samsung Galaxy J

SAMSUNG
Galaxy J

Product family Samsung Galaxy

Type Smartphone, Tablet

Release date	1 February 2015; 10 years ago
---------------------	-------------------------------

Operating system	Android
------------------	---------

System on a chip	Exynos
	Snapdragon
	Spreadtrum
	Marvell
	MediaTek
	Broadcom

Successor	Samsung Galaxy M series (2020–) ^[1] Samsung Galaxy A series
------------------	--

edit]

Other materials are used,^[vague] with Samsung targeting Asian markets or the European entry-level market. The models are updated at least annually, minor updates or variants are displayed with name additions such as Pro, Prime, Max, etc.

Despite having a similar name, [the original Galaxy J](#) (SGH-N075/SC-02F), released in 2013, does not actually belong to the Galaxy J series as this phone was only available in few markets, and also positioned as a high-end smartphone based on the [Samsung Galaxy S4](#).^[2]

In September 2018, there were rumors that Samsung will reorganize their smartphone lineup by discontinuing the Galaxy J series along with the online-exclusive **Galaxy On** in favor of extending the mid-range **Galaxy A series** to lower-end segment and introducing the **Galaxy M series** as the new online-exclusive series of smartphones^[3] to better compete against the increasingly popular Chinese manufacturers, such as **Huawei**, **Oppo**, **Vivo**, and **Xiaomi** in the budget smartphone market. Samsung later introduced **M10** and **M20** in January 2019,^[4] followed by **Galaxy A10**, **A30**, and **A50** the following month,^{[5][6]} and eventually announced that the Galaxy J series has officially merged into the Galaxy A series during the 2019 Galaxy A series launch event in April 2019 held in **Thailand**.^[7]

Successor [edit]

The Galaxy J series was discontinued in April 2019 in favor of extending the mid-range Galaxy A series into the entry-level segment, as well as introducing the online-exclusive Galaxy M series. The 2019 lineup also introduced Samsung's new naming scheme, with two-digit numbers as opposed to single digit of previous generation models.
